YES!

MORE WAYS TO GET PAID!

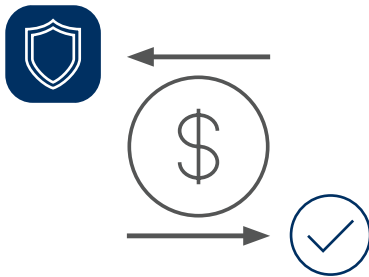

CPACharge's easy-to-use payment solution was developed to help you accept online payments and improve cash flow—including eCheck processing for 0% and a flat \$2 per transaction.

ONLINE PAYMENTS DESIGNED FOR CPA FIRMS

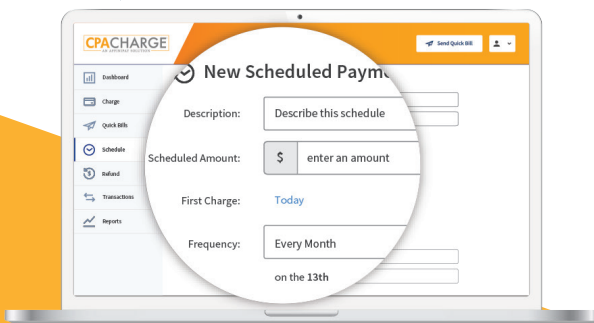

CUSTOMIZED PAYMENT PAGES

We create a secure, custom payment page for your firm that is hosted on our servers, eliminating the need for you to handle or store sensitive client card information or routing and account numbers. You can then link to these pages from your website, invoices, or emails.

DESIGNED FOR EASY, FAST RECONCILIATION

Let clients pay you the way they want, while you get 100 percent of your payments deposited into your bank account, with fees debited the following month, for simple, accurate reconciliation.

SCHEDULED PAYMENTS

Plan transactions in advance and ensure you get paid on time. Simply arrange for a client's card or checking account to be charged at scheduled intervals and receive payment without having to re-collect or store payment details.

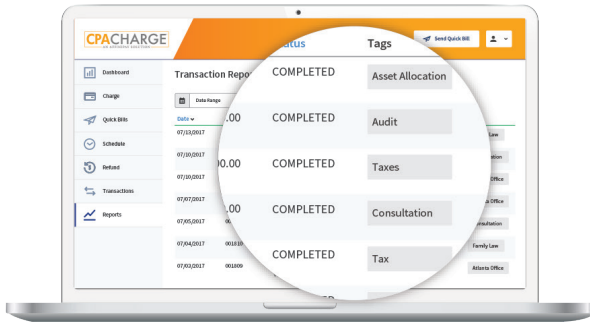

ADVANCED **SECURITY**

Our technology exceeds standards for internet security and PCI Level 1 compliance, and receives quarterly scans and an annual audit from a qualified security assessor. You can rest easy knowing your firm's data, and your clients' sensitive information, is guarded by advanced fraud and risk protection, and data encryption measures.

COMPREHENSIVE **REPORTING**

Managing your practice is easier when you have the right information at your fingers. CPACHarge reporting was developed to display all deposit details for faster reconciliation. You can also "tag" transactions by partner, practice area, or location to create custom reports.

IN-HOUSE **SUPPORT**

Our in-house team of Certified Payments Professionals offers personal, friendly support by phone, live chat, or email. You'll never be hassled with confusing phone trees or automated responses. Get your questions answered by a real human in our office, every time.
