2006 National PCPS / TSCPA Management of an Accounting Practice Survey

Report prepared for: Texas Society of CPAs

SECTION I

SUMMARY GRAPHS

Definitions:

We have assigned you the following peer groups for benchmarking. We have attempted to group practices of comparable size, so that the performance benchmarks will be more meaningful. For more targeted benchmarks, please consider visiting the online reports.

All Texas All the respondents from the state of Texas
Small Texas Small firms (<\$300K in revenues) in Texas
Medium Texas Medium firms (\$300-\$999K in revenues) in Texas

Large Texas Large firms (>\$1M in revenues) in Texas

As defined herein, "Large" refers to firms with more than \$1 million in revenue, "Medium" to firms with \$300,000 to \$1 million in revenue, and "Small" to firms with less than \$300,000 in revenue. There are also subclasses for responding firms, <\$150K, \$150-299K, \$300-\$549K, \$550-\$999K, \$1M-\$1.99M, and \$2M+ in

Caveats

- Graphs may be stretched or condensed. Each report has been automatically prepared, so optimal scaling was not always possible. Actual numbers will be provided in the following tables.
- In certain cases, respondents did not provide internally consistent answers, provided "out of range" responses, or entered answers that suggested that the question had been misunderstood. In such cases, we endeavored to revise answers to reflect our best understanding of the respondent's intentions. Thus, you may observe some changes to your response as entered.
- There is also an online report available for the 2006 MAP Survey that will enable respondents to define their own benchmarks.
- "Net remaining Per Owner" as shown in the report may not always exactly match firm revenues less expenses, due to input and interpretation issues.

2006 National PCPS / TSCPA Management of an Accounting Practice Survey

Report prepared for: Texas Society of CPAs

TABLE OF CONTENTS

This report enables firms to look at metrics in 3 major ways: 1) Graphical summary, a collection of charts with firm information integrated where appropriate; 2) State / National Benchmarks, which include firms of all size classifications in your subregion and nationally. Summary categories are listed below.

Graphical summaries contain results extracts, suitable for quick overview and/or presentation to non-owner staff. The state and national results enable access to detailed, granular data about every relevant statistic. We present a multiplicity of "benchmarks" in the hope that several of the statistics provided will be relevant to some of the decisions that the firm encounters over the course of the year, and the broader perspective will provide the firm with a general picture of the accounting landscape.

The Table of Contents below details the pages on which you can find specific survey results in each of the three presentations as indicated above. Page numbers for the 52-page metro area reports are omitted to conserve space; these reports follow the same layout and structure as the "Core Benmark" reports.

Results by Subject Area		Graphical Summary	Core Bench- mark
Section A Background Informa		67	2829
Location	State, metro definitions (i.e., census classifications), and metro areas	6	28
Practice size	Sole practitioner, number of CPAs, etc.	6	28
Change in firm size	% of change in firm size, and reasons for this change	7	29
Other Attributes	Age of firm, fiscal year end date, and status in membership organizations	7	2930
Office	Offices offered to staff, square footage, and cost.	7	30
Section B1 Income Statement		711	3437
Prior Year History	A / R and WIP as of FY end 2005, Firm Capital, and 2004 Revenues	7	31
Income Unadjusted	Gross fees, write-ups(downs), net fees, interest income, other income, and total income	8	31
Expenses Unadjusted	Salaries (prof, non-prof, and other), benefits, Computers, marketing and other categories	N/A	31
Income- % of Net Client Fee	Income categories above divided by net client fees, to improve cross-firm comparability.	N/A	32
Expenses- % of Net Client Fees	Expense categories above divided by net client fees, to improve cross-firm comparability.	9	32
Income Per Professional	Income categories above divided by # of prof'ls, to improve cross-firm comparability.	8	33
ExpensesPer Professional	Expense categories above divided by # of prof'ls, to improve cross-firm comparability.	10	33
Net Remaining	Net remaining for owners	11	31
Section B2 Other Financial F	Premises / A/R and Sources of Fees	1113	34
Accounts Receivable	A/R aging statistics, bad debt stats and policies, and A/R interest charges	1112	34
Sources of fees	Fees split by major services including Audit, Consulting, FAS, IT, Tax, Write-Up, etc.)	13	34
Section C1P Key Personnel Me	etrics FT Prof'ls (by owners, directors, managers, sr associates, and associates)	1617	3637
Staff Numbers and Attributes	Number of staff in class, proportion who are males, and proportion who are CPAs	13	3637
Compensated Hours	Average annual number of hours compensated (i.e., worked hours + PTO) for each class	13	3637
Chargeable Hours	Average annual number of chargeable hours and chargeability ratio	14	3637
Compensation	Average annual salaries and average compensation per hour worked	14	3637
Billing Rates	Average billing rates	14	3637

2006 National PCPS / TSCPA Management of an Accounting Practice Survey

Report prepared for: Texas Society of CPAs

Average Household Income in Firm's Area (By 3-Digit Zip)

What is Average Household Income? (AHI)

AHI is a measure developed by the U.S. Department of the Census that divides all income earned within a given area by the total number of households therein. We have assigned each firm an AHI based on zip codes provided (by taking the first three digits of the zip, to smooth data).

We provide AHI data to enable benchmarks against firms with comparable cost of living indicators. For example, a firm in Manhattan may be more comparable to firms in other areas such as San Francisco. A firm in Enid, Oklahoma may compare themselves to other rural communities that have wth low costs of living -- providing them with valuable benchmarks even though few firms in their immediate vicinity may have completed the survey.
